

<a href="#">Shift Training</a>	<p>We are offering professional development through Shift on Diversity, Equity and Inclusion. Shift helps “people and organizations on their journey towards understanding and embracing equal justice and belonging, <b>empowering you to make a lasting impact and create systemic change.</b>” Additionally, there is an Infection Prevention Course that will help teachers follow proper procedures as we move towards Limited In-Person Instruction and fully in-person instruction. The majority of the training will be virtual at your own pace. At the conclusion of the online course, there will be a Virtual Reality portion that will be done in-person, following safe procedures. <i>Numbers are limited - sign up <a href="#">here</a> to ensure you will be included.</i></p>	<p>CTE teachers</p>
<a href="#">Data Science</a>	<p>We are surrounded by Data. This Data is telling us a story about the world we are living in. We all rely on people who are able to analyze and interpret the data in order to make sound decisions that impact all of us.</p> <p>Yet, we are not preparing our students for this world that heavily relies on this part of mathematics. If you are interested in starting a Data Science course or implement Data Science into your content in the 2020-21 school year contact <a href="#">Regine Childs</a>.</p>	<p>K-12</p>
<p>CTE Program of Study Lead</p>	<p>Interested in leadership opportunities within your CTE program of study area? Join us for a no-obligation <a href="#">informational session</a> (TBD). If you are selected as a lead, you will receive a stipend, Professional Learning Community training through <a href="#">Solution Tree</a>, and PDUs. The commitment is through June 2022. Contact <a href="#">Regine Childs</a> for more information.</p>	<p>CTE teachers</p>
<a href="#">Oregon Connections Powered by Nepris</a>	<p>Oregon Connections is the next generation, web-based tool that makes it easy for industry professionals to connect with K-20 educators. Professionals can share their skills and expertise to bring real-world, authentic learning opportunities to all our students helping to create the next generation of innovators. Through in-person matches and virtual sessions, professionals can help students and teachers connect their classroom to the world of work. Together we can make a difference. Please join us for a <a href="#">30 minute workshop</a> on how to navigate Oregon Connections. Attendees will receive a one-year Platinum license with UNLIMITED access to industry professionals. More information below.</p>	<p>K-12</p>
