

CTE and STEM Newsletter

December 2020

Time for Rest

As we move through the holiday season, we implore you to take time for yourself, your family, and friends - to renew, relax, and refresh yourself. 2020 has presented us with challenges, and yet there are so many positives that have come out of our experiences - we've tackled and become pros on Zoom, WebEx, Google Meets, etc. We've rocked masks - disposable, homemade, fancy, finding our own styles. And, we've supported our students through the most trying time of their young lives. Wherever you are and however you're feeling, please know that we support you, we appreciate you, and we're here for you.

Upcoming Professional Development

We are offering a variety of professional development for our partners. If you are interested, please register via the link.

PD/Conference	Description	Age/Grade Level
Career Tree	The Career Tree is a tool that helps every student embrace their "Light at the End of the Tunnel" school experience. For more information, contact your school counselor or School-to-Career Coordinator. For any questions contact Regine Childs or Sign up for training .	HS CTE/ Counselor Future/Career Center
Math in Real Life	Math in Real Life: Have you ever had a student ask, "When are we going to use that math in real life?" As educators, we may struggle to show kids how what they are learning in class has real life implications. Designing lessons that show how math is used in real life can be challenging. Join a cohort of educators to explore how to integrate MIREL. Or contact Regine Childs for more information.	HS, MS - CTE, Math, Science
Oregon Open Learning Hub	Did you know educators across the state are sharing instructional resources? Learn more about this resource called Oregon Open Learning OER . If you're just getting started, check out the Oregon Open Learning User Guide .	K-12
Central Oregon Virtual Explorations	In a collective effort led by the Children's Forest of Central Oregon, local community partners are offering virtual explorations. Access these amazing resources: Nature Based Distance Learning	K-12, Out of School Providers
